

The K-Love station is heard on 91.1 FM in my area. It serves as an encouragement to so many of my friends and neighbors. To have a Christian station in our community is valuable to help those that are hurting and searching for answers to life's tough situations. If this station was to go off the air, it would be a sad day indeed and a blow for the many people who only listen to this station and no others. I believe that this station serves the public in so many ways. It gives many good short programs that offer advice on money matters, family matters, youth matters, and many times life or death matters. The staff that gathers just for prayer of the listeners is a great source of help for those people. I love the no commercials on this station, and I financially support them each month. Please do not dis-place them with some other LPFM station.

Thank you
